## Release Notes for PCC OTC Release 5.7

Release 5.7 of PCC OTC is scheduled for release on October 29, 2011. This release includes several backend modifications that will not directly impact users. The modifications include:

- Improvements to check image slowness
- Improvements to corrupt image logging
- Upgrades to the PCC OTC technology components

### Imaging Processing

Software updates have been made to fix known backend image processing issues.

- Previously, bad images resulted in the failure of completion of the image file and corrupt image logging. Software updates have been made to improve the ability to locate bad images
- Previously, image processing to Debit Gateway experienced slowness. Software updates have been made to improve image retrieval performance

### Technology Upgrade

Updates have been made to improve PCC OTC software infrastructure and performance. The following technology components were upgraded:

- Oracle 11g R2 database
- Web Logic 11g version 10.3.4.0
- Existing libraries
